

Addressing the Genuine Student Criterion

1. Please provide details of your current circumstances, including ties to family, community, employment and economic circumstances, and address any academic or professional gap of more than six months.
 - Briefly introduce yourself and your current situation
 - Explain your family situation, including their economic status
 - Include incentives to return such as assets, family business, land etc.

My name is **XXX**, and I completed Grade XII in **XXX**. After that, I actively researched higher education options both in Nepal and abroad. Considering tuition fees, academic environment, and global recognition, I finalized the Bachelor of Business Administration program at **XXX**. To meet the English language requirement, I joined IELTS classes and took the exam on **XXX**. I live with my father, **XXX**, my mother, and grandmother, who have been very supportive of my decision. Our family earns an annual income of **XXX** through my father's and mother business and land lease. We have secured an education loan of **XXX** to fund my studies. We also own inherited property valued at **XXX** ensuring financial stability. I plan to return to Nepal after graduation to contribute to my family business and local development.

2. Explain why you are not studying this course in your home country
 - Why Australia/ **XXX**) over other options
 - Demonstrate your understanding of the course
 - Demonstrate your understanding of living in Australia (costs, etc.)
 - Provide study and employment history and explain how your chosen course relates/builds on this

I chose Australia for its globally recognized, practical, and industry-focused education. Compared to Nepal, it offers better resources, international exposure, and job readiness. I selected **XXX** over **XXX** and **XXX** for its high graduate employment rate, scholarship opportunities, and strong student support. The **Bachelor of Business Administration** at **XXX** is ideal for me because it provides a broad foundation in business while allowing flexibility through electives. I was inspired to pursue this field by observing my father manage our family business. This course will equip me with essential skills in strategic planning, financial management, marketing, and leadership to help modernize and expand our business. Subjects like Business Data Analytics, Corporate Finance, and Managing People and Culture are highly relevant to my goals. I understand the living costs in Australia average **XXX**. I plan to stay in shared housing near the **XXX** campus to manage expenses effectively.

3. Detail how this course will assist you to achieve your goals/give you advantages in the job market.
 - Explain you career goal – job type, companies/organizations you aim to work for, expected salary (based on research)
 - Demonstrate how you expect to get a return on your investment (show costings, time to recover)

Bachelor of Business Administration at **XXX** prepares graduates for diverse roles such as in general management, marketing, HR, business analysis, policy administration, international trade, market research, purchasing, advertising, and financial management. While the course opens doors to many fields, my personal goal is to become a Financial Analyst. I've always been drawn to numbers and strategy, and watching my father manage our business finances inspired me to pursue a career in this area. Through this program, I will develop strong skills in financial planning, business analytics, and strategic decision-making. I aim to work in top organizations in Nepal such as **XXX**, **XXX**, or **XXX**. Entry-level salaries range from **XXX**, increasing to **XXX** with experience. With a total education cost of AUD **XXX**. I expect to recover my investment within 4–6 years while contributing to Nepal's economic growth.

4. Please provide any other relevant information that demonstrates that you are a genuine student. For more information, please refer to **Ministerial Direction No. 106**

Nepal's growing reliance on data-driven strategies has increased the demand for skilled professionals in business analytics and management. However, there is a noticeable shortage of qualified experts in this field. By studying at **XXX**, I will gain globally recognized education, hands-on experience, and industry connections that will enable me to fill this gap effectively. While studying abroad is a significant investment, I view it as a strategic step toward long-term personal and professional growth. I am committed to returning to Nepal after completing my studies to care for my aging parents and help expand our family business using the knowledge and skills I acquire. Although Australia offers attractive job prospects, Nepal's lower cost of living, deep family bonds, and emerging business landscape make it my ideal home. I have no prior immigration history, and my genuine intention is solely to pursue quality education and return to contribute to my country's development.
