

Give Details of the applicant's current circumstances, including ties to family, community, employment and economic circumstances.

I'm **XXX** born on **XXX**, from Chitwan, Nepal. My father **XXX** earns from his business **XXX** and House rent, and my mother **XXX** also has a business named **XXX** and a total of **XXX** annual income. And they have a property value of **XXX**. We have also approved an education loan from NMB Bank, amounting to **XXX XXX**. My passion for technology since childhood led me to pursue Computer science in my 12th grade and now choose it as a career. Intrigued by machines working autonomously and processing vast data, I chose to study Bachelor of information technology (BIT) at **XXX**. It's a prestigious profession in my country, offering dynamic opportunities to hone skills and inspire juniors. With a long-term vision, I aim to seize job prospects and shape a promising future.

Explain why the applicant wishes to study this course in Australia with this particular education provider including their understanding of the requirements of the intended course and studying and living in Australia.

Studying and living in Australia, will provide me with a multicultural experience, exposure to diverse perspectives, and an English-speaking environment. I chose to study BIT at **XXX** because of its strong reputation in the field and modern educational methods. **XXX** innovative teaching approach supports students in managing both work and life commitments effectively. Computers have always been my passion, and the dynamic nature of the IT field aligns with my dream career. The vast opportunities in the industry, both physical and virtual, coupled with the increasing demand for IT specialists, make this path appealing. I chose the Melbourne campus for its excellent transportation options and varied housing choices. I have budgeted for accommodation costs, initially planning to stay in a shared house or homestay to adapt to the new environment. I aim to find accommodation within proximity to my campus.

Explain how completing the course will be of benefit to the applicant.

My BIT degree will equip me with Python, Java, cybersecurity, and many more. I have a strong interest in cybersecurity, particularly in Nepal where the risk of cybercrime is growing along with technology. There is a big need for cybersecurity specialists to keep data safe in banks, government, and companies like NTC, Worldlink, ESewa, and others. I want to be a cybersecurity specialist to help protect personal and confidential data in Nepal from increasing cyber threats. In Nepal, a local degree holder earns NRs 14L per year, but with a foreign degree and additional skills gained from PSW, one can secure a higher salary. Also, PSW will help me to earn well and help me to repay the loan amount which we have taken for my education. Despite living costs being cheaper in Nepal compared to Australia, the potential savings could be greater. With that salary, it's possible to recover education investment within 5-6 years, which seems like a fair return. <https://worldsalaries.com/average-information-security-manager-salary-in-nepal/>

Give details of any other relevant information the applicant would like to include.

International graduates with innovative ideas are favored by employers, and I intend to leverage this advantage when I return home to Nepal. As an elder child, I have a close bond with my family and the responsibility to support them. In Nepal, the strong demand for internationally trained cyber security experts offers me promising career opportunities upon I come back to Nepal. Additionally, I have family assets and a business to manage, further emphasizing my intention to return home. While presently single, my intention is to establish a family in Nepal after I finish my education. The improving economic situation in Nepal, particularly in the IT sector, motivates me to return and contribute to the country's growth. I have not traveled to Australia or any other country. Therefore, I do not have a study record in Australia to provide.
