My name is **XXX**, born on **XXX** in **XXX**. I come from a close-knit family. My father, **XXX**, is a retired Indian Army personnel, and my mother, **XXX**, runs a small business and earns income from house rent. Their combined annual income is **XXX**. They own property and have taken an education loan of **XXX** from **XXX** to support my studies. I chose to study business not only because of my interest in finance but also because I saw many small businesses in my hometown struggle due to poor planning and management. I want to gain the right knowledge to help improve such businesses. I studied management in high school and now I have been accepted in the Bachelor of Business (Accounting) at **XXX**. I have strong family and community ties and am committed to returning home after completing my education.

I chose Australia over the UK and Canada because of its practical education, safety, and affordability. I explored business courses at several Australian universities and found the Bachelor of Business (Accounting) at **XXX** ideal. The course covers subjects like marketing, accounting, ethics, and data analysis, with a strong focus on real-world application and work-integrated learning. In Nepal, business courses are mostly theory-based, lacking this hands-on approach. I compared **XXX** with **XXX** and **XXX** and chose **XXX** for its affordable fees, industry-relevant curriculum, and good graduate outcomes. **XXX XXX** campus is modern, centrally located, and well-connected by public transport. I plan to live in shared rental accommodation near the city Centre, with annual living costs of approximately AUD 29,710. I will commute daily using **XXX** buses, trains, and trams. My studies will be funded through family savings, our business income, and an educational loan. This degree will provide me with the skills and knowledge to return to Nepal and contribute to the growth and success of our family business.

3. Explain how completing the course will be of benefit to you.

Your statement must include the below:

- Is the course consistent with your current level of education.
- Explain how the course will assist you to obtain employment or improve employment prospects in your home country or another country.

- Explain expected salary and other benefits in your home country or another country obtained with the qualifications from the proposed course of study.

Bachelor of Business (Accounting) at **XXX**, matches my education in management and builds on what I've already learned. It will help me gain practical skills in marketing, finance, leadership, and business strategy—skills that are in high demand in Nepal's growing economy. After completing my degree, I aim to work in well-known companies like **XXX** or **XXX**, where I can gain experience in corporate business operations. In the long term, I want to become a business consultant or start my own company supporting small and medium-sized enterprises. While I also plan to support our family business, my goals go beyond that. In Nepal, entry-level roles such as business analyst, junior accountant, or management trainee offer monthly salaries between NPR 58,000–88,000 **XXX**. With this internationally recognized degree, I expect to recover my investment within 4–5 years through better job prospects and by contributing to Nepal's business growth.

4. Give details of any other relevant information you would like to include.

Your statement must include the below:

- Please include your and your spouse's (if applicable) details of all immigration history (including Australia and other countries).
