I chose **Australia** after comparing it with the **UK and USA**, as it offers a more affordable, practical, and supportive learning environment for international students. After completing my **Bachelor of Business Studies**, I researched postgraduate options in Australia and found the **MBA (Global) at XXX** most relevant to my goals. The program's focus on leadership, international business, and strategic management aligns with my career aspirations. Such globally oriented and practical training is limited in Nepal, which is why I decided to study abroad.

I also considered providers such as **XXX and XXX**, but selected **XXX** for its strong reputation, flexible structure, and industry connections. **XXX** offers excellent facilities and a diverse academic environment, making it ideal for my growth. I plan to live in shared rental accommodation near the city center, with annual living costs of about **AUD 29,710** commuting via public transport. My studies will be funded through family savings, business income, and an education loan, ensuring full financial support.
